

saveOriginalProgramExecution
Times

```
graph LR; A[saveOriginalProgramExecutionTimes] --> B[f]
```

The diagram consists of two rectangular boxes connected by a horizontal arrow. The left box is gray with a black border and contains the text 'saveOriginalProgramExecution' on the top line and 'Times' on the bottom line. A dark blue arrow points from the right side of this box to the left side of a second box. The second box is white with a black border and contains the letter 'f' in the center.
